

Resume Assistant

Create your best resume yet with Resume Assistant, powered by LinkedIn.

Creating a polished, professional resume is a challenge. You've already accomplished so much. So, how can you best describe those past work experiences—while showcasing your best skills?

Whether you're cleaning up an old resume or going after your dream job, Resume Assistant,

powered by LinkedIn, helps you spotlight your talents and make your resume more appealing to recruiters.

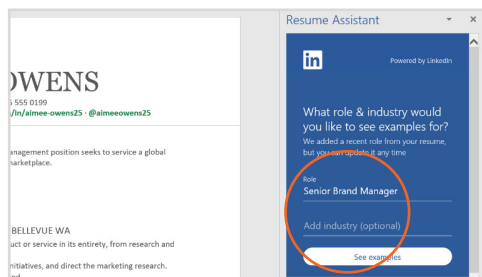

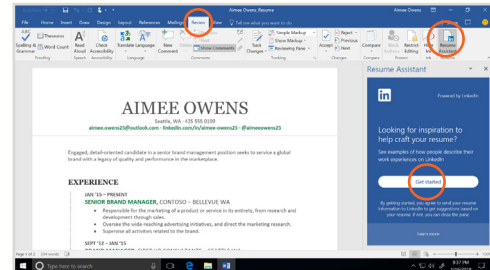

Real-world scenarios:

- *Draw inspiration from other professionals' resumes*
- *See how others in your field represent their work experiences*
- *Customize your resume based on relevant job postings*
- *Easily let recruiters know that you're open to new opportunities*

A step-by-step guide to demo Resume Assistant

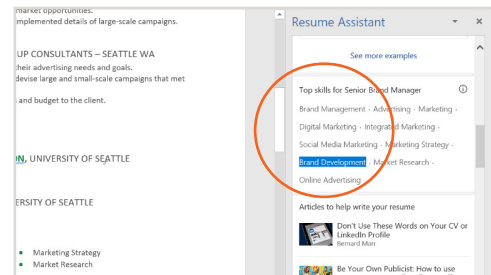

Step 1

Click **Review**, then click **Resume Assistant**. The first time you do this, click **Get started**.

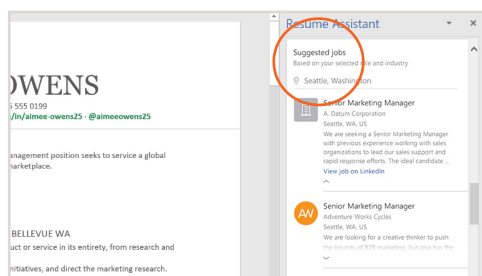

Step 2

Enter the role and industry you're interested in, and click **See examples** to view samples of other professionals' work experience.

Step 3

Scroll down to view the **Top skills** section—highlighting the most popular skills in that trade.

Step 4

Scroll down to the **Suggested jobs** section to view current job openings.

Step 5

Scroll down to the **Let recruiters know you're open** section and click **Get started on LinkedIn**.
